Skills

- Time management
- Good speaker
- Typing

- JavaScript , HTML / CSS , Java, React js, Node js

- VS code, Android Studio, Adobe Illustrator, Adobe Photoshop, Figma

About Me

As a final year software engineering student at Sri Lanka Technology Campus, I'm passionate about Web Design, Graphic Design, and UI/UX. With a solid foundation in software engineering, I blend technical expertise with creative flair to craft visually captivating and user-centric designs. My experience includes proficiency in design tools, a strong understanding of design principles, and a dedication to creating seamless user experiences. Eager to leverage my skills in a real-world setting, I seek to contribute to impactful projects and further develop as a versatile designer.

Education

BSc (Hons) in Information Technology in Software Engineering Sri Lanka Technological Campus Padukka (2020 - 2024) **CGPA – 2.86**

Software Architecture
Programming Concept
Object Oriented Programming
Business Analysis
Arts for Technology, etc …..

Diploma in Psychology & Counselling in IMBS (Institute of Management & Business Sturdies) Green Campus (2021-2022) **CGPA – 3.360**

Professional Training and Qualification

Uva Wellassa University
Certificate Course In Engilish For School Leavers

University Of Moratuwa
Online learning Programme in Web Designing for Beginners

Sri Lanka Technological Campus Padukka
Road to CodMania'21: Python Fundamentals & Algorithmic Programming IEEE Computer Society

COURSE
Cloud Computing Applications, Part 1: Cloud Systems and Infrastructure

National Youth Services Council Badulla
Certificate Course in Computer Application Assistant

Sri Lanka Rupavahini Corporation (SLRC)
Application Form - Certificate Course Dubbing

Work Experience

Web Developer (Intern) Aadhira Holidings (2023 – 2024 *(6 mon)*)

[Aadhira Holdings - Digitalizing Future](#) Interned for 6 months at Aadhira Holdings, where I gained practical experience in web development. Contributed to web development project under the guidance of senior developers. Participated in coding, debugging, and testing processes to enhance my skills in frontend development.

Academic Project

Create a messaging mobile app using flutter and dart – Technology Challenge Competition (2022) - https://github.com/nixx49/tweetvio.git

This project of Team Mustangs is conducted in order to build A Text Based Chat. Application. The application is required to have the features, Private Messaging, Public Rooms, Group Chatting, User Management Reporting.

The name of the application that we will be creating in this project is "Tweetvio"

Student Management System for SLTC Research University

This is my final year project In our university students And 93.2% prefer to maintain their data continuously and get predictions. Accordingly, there has been a strong need for a web-based system that can enter all the data of the students, review it and predict the progress of the students. We use React, Node to develop this.

ECommerce-System - https://github.com/rash0956/ECommerce-System.git

This website was created by me for the final project of web development course, which is an open online course of the University of Moratuwa, under the "Trainee- Full Stack Developer" program. HTML, CSS, and Javascript languages were used to create it.
